## LOCATION

### SITUATED WITHIN THE UK'S GOLDEN TRIANGLE OF LOGISTICS

Coventry's position at the heart of the Golden Triangle provides excellent connectivity for national and international distribution companies, with 90% of the country's population being reachable within a 4-hour drive time.

The property is situated only 3.5 miles from Junction 2 of the M6/M69 Motor Way junction intersect, providing excellent connectivity to all major cities within the East and West Midlands. Additionally, the property is approximately 95 miles Northwest from London and 110 miles Southeast of Manchester.

Coventry is the ninth largest city in England with a population in excess of 360,000 and a GDP of over £11 billion. This is largely driven by the advanced manufacturing and engineering sectors, given its strong geographic location and access to a large employment catchment.

## COVENTRY INDUSTRIAL MARKET

### A KEY INDUSTRIAL AND LOGISTICS LOCATION

The Coventry industrial market is popular with occupiers due to its excellent connectivity to nearby multimodal transportation and access to a cost-effective employment market. This has driven demand in the area, pushing up rents and minimal void periods to be some of the strongest in the Midlands region.

Coventry has experienced a steady increase in rental growth, with average rents rising by 3.9% over the past 12 months. This growth persists despite significant turbulence in the consumer economy, which heavily impacts the sectors operating in the Coventry area. Although this increase falls below the five-year average of 7.4% per annum, it highlights the resilience of occupiers and sustained demand for the region. Rents are in excess of £8.00 per sq ft and recent comparables are set out below
